

I advocate retaining all the existing FCC rules on broadcast media during this biennial review.

The fact is that our media is already sadly compromised by monopolies of corporate interests who feed us only the propaganda they wish us to hear.

To advocate the retaining of rules that keep two corporate giants competing with each other rather than letting one have it all is a sad commentary--this is what we have come to.

for god's sake, do not let it become any worse. Retain the existing rules. Give us a chance to hear a tiny bit of truth once in awhile.

Oh--is my naivete showing? Prove to me you are not already in deep corporate pockets yourselves. Retain the rules.

Thank you.
